- There are NPTEL Certificates on Technical courses

## INTERESTS

Software Development , Tools like Java,DotNet ,ML(AI).

## PROJECTS

**1.PROJECT - III**
**Tittle** : A Web application for COVID-19 Diagnosis based on chest X-Ray Images
Duration : Jan,2022 - Mar,2022 ,3 mon
Summary : By using the chest X-ray images, we predict whether the imaged person has covid or not.
Skills : NumPy , Open Cv2, Tensor flow, Keras, Matplotlib, Sklearn, Flask Framework.
**2. PROJECT - II**
**Tittle** : Automatic Pavement Crack Detection By Multi-Scale Image Fusion
Duration : Sep,2021 - Nov,2021 ,3 mon
Summary : Checking whether the images of pavements, roads, walls, etc., have cracks or not.
Modules : NumPy , Open Cv2, Tensor flow, Keras, Matplotlib, Sklearn .
**3. PROJECT - I**
**Tittle** : Household Solutions
Duration : Feb,2021 - Apr,2021,3 mon
Summary : In this I have created an android app using Android Studio which provides solutions to the basic problems on every household and named the project as Household Solutions. Including this a web page is also created for all dimension using visual Studio.
